2022

To Hiring Manager,

I am a Graphic/Web Designer. I possess extensive work experience in the areas of education, web design and photography. I am currently employed at Creative Business Solutions as a graphic designer and have worked as a graphic/web designer for years.

I possess an Associate Degree in Graphic Design with a Specialization in Multimedia, as well as a Master's Degree in Education. I am familiar with print, web and video production. I do sweat the details.

I have always found communications work to be challenging and extremely rewarding. I am well organized, self-motivated and goal oriented. My involvement with the web since its inception, military experience, years of teaching experience and years of photographic work have collectively shaped my wide range of design skills. I have a long history of working collaboratively with clients and coworkers.

I possess a diverse set of design/web/multimedia skills. I am ready and able to support your team in their mission.

I would welcome the opportunity to talk with you.
